

## 100 Hits of Classical Music

This book is not intended for sophisticated music aficionados although even they might find it enlightening. It is designed for novice followers of classical music and those who as yet remain blissfully ignorant of its allure. The most reluctant of readers will probably refuse to be converted to the love of Bach & Co.; nevertheless, its contents might prove useful even to them: in the worst case, it will give them a chance to dazzle an accidental audience with their refined knowledge.
