

How to Dress an Apple Shaped Body

No matter how often you hear that you look great or that you're luckier than others, it's still impossible to avoid the ever-present pressure to be skinny like a model on a billboard. Advertising everywhere focuses on an unrealistic ideal, an image of a woman who looks incredible in every piece of clothing she wears. Of course, that image is almost entirely impossible. Most women in ads these days are airbrushed, slimmed down with Photoshop, and would be unrecognizable if you saw them in person. Their secret to looking great is no secret - they are enhanced by the best computer technology available and they've got teams of hair and make-up stylists making them look as good as possible for each photo shoot.
