

## Trust The Universe

Journey inside Trust The Universe and you will find that amongst life's challenges adversity always triumphs. Fears and doubts can be overcome and when you learn to believe in yourself, trust your instincts, and trust the Universe things start changing and in most cases it's for the best. Of course sometimes things don't go according to plan and we question why we are dealt with unbearable grief and hardship. The many lessons Vicki has learned over her lifetime are bound to resonate with you, but what she does as a result is something you may not expect. Her journey is without doubt incredible. An example of what you can find inside Trust The Universe: My doubts about my spirituality were growing stronger every day now. Why? What had changed to make me doubt myself, doubt the Universe, doubt the messages and readings I was being given by psychics and spiritual teachers? I got on with work, put up a mental barrier; I stopped meditating, stopped reading motivational books and stopped talking to my spiritual friends. I went into my head, and continued working all day every day. Over a few weeks I stopped smiling; I stopped laughing, I stopped being happy, and the worst thing was, I didn't even know it. The doors stopped opening. The clients I had booked in started to cancel and the work I was doing started to be a chore. The computers would crash, I lost files, emails bounced, and the phone stopped ringing. One day I woke up and for the first time ever, I didn't want to go to work; which is kind of hard as I work my business from home. I took the day off work, put the 'gone fishing' sign on the door, redirected the business phone to my mobile and then turned my mobile off. I didn't want to be disturbed. I went to the movies. I realized I needed to laugh again so I immersed myself in a romantic comedy. It was in that darkened, empty picture theatre in the middle of the day that

I got the answer to the question I had asked those weeks before. Have you ever noticed that life's lessons are hard to accept especially when you don't want to face the truth, ummm so many lessons to learn! You'd think that at my age I'd have learned most of my lessons in life, but alas it appears I still have plenty to learn, or maybe I'm just a slow learner. This was my life five years ago. What happened after that day in the picture theatre started a chain of events that brings us to today and this book will reveal how something so bad could turn out to be so beautiful. This book takes you on a personal journey and is just one example of what is possible when you let go of fear-based practices; when you believe in yourself and trust the Universe.
