

A Comparative Study of Working Capital Management: With reference to Standard Chartered Bank Nepal Limited and Himalayan Bank Limited

The main objectives of A Comparative Study of Working Capital Management is to examine the management of working capital and its impact on overall financial position of two banks namely Standard Chartered Bank Nepal Limited and Himalayan Bank Limited. It describes the position of current assets and current liabilities, composition of working capital, assets utilization and profitability position of the both. It also presents a brief conceptual framework about working capital management. It should prove usefulness to students, researchers, shareholders, policy makers and all those who are interested to gain knowledge about working capital management.
