

Antoni Muntadas: Entre / Between, Vol. 1

Antoni Muntadas (*Barcelona, 1942) is one of the most important contemporary Spanish artists. His work addresses social, political and communications issues, the relationship between public and private space within social framework, and investigates channels of information and the ways they are used to promulgate ideas and control and censor information. Working in different media, such as photography, video, publications, Internet and multi-media installations, Muntadas often speaks about the condition of being in between as a point of departure for his work. This between can be characterized as a place of ambiguity outside specific sites or destinations. This two-volume publication is the catalogue of the retrospective exhibition that will be held at the Museo Nacional de Arte Reina Sofia in Madrid in October 2011. The catalogue uses the same organizing principle as the Muntadas exhibition that considers his oeuvre from the perspective of constellations of space, with titles such as Micro Spaces, Power Spheres, The Construction of Fear or Translation Spaces. Each constellation is a comprehensive thematic unit of images, artist s writings as well as new and old texts by notable contributors from the field of contemporary art and theory. The second volume (ISBN 9788492861903) will contain a conversation between the director of the Museo Nacional de Arte Reina Sofia, Manuel Borja-Villel, and Muntadas, plus documentary material from the installation at the Museum.
