

Aristotles Rhetoric: An Art of Character

In this major contribution to philosophy and rhetoric, Eugene Garver shows how Aristotle integrates logic and virtue in his great treatise, the Rhetoric. He raises and answers a central question: can there be a civic art of rhetoric, an art that forms the character of citizens? By demonstrating the importance of the Rhetoric for understanding current philosophical problems of practical reason, virtue, and character, Garver has written the first work to treat the Rhetoric as philosophy and to connect its themes with parallel problems in Aristotle's Ethics and Politics. Garver's study will help put rhetoric at the center of investigations of practice and practical reason.
