

A Managers Mind: The Foundation for Entry-Level Management

Ever wonder what its like to be a manager? Maybe you have taken on the title and dont really know what youre getting into. If so, this is the book for you. Christian Evans gives an overview of every aspect there is to know for first-time managers. I wrote this book because I wanted to share my experiences with everyone. I remember when I first took on this position, I didnt have a clue about what I was getting into. I know there are people getting started in this field who have the same questions I had. Through my experiences, I have your answers. Universally written, A MANAGERS MIND is made for you from genuine experiences and told through a first hand point of view.
