

Romanian (Teach Yourself)

This book constitutes a course in Romanian, incorporating the vowel changes in the Romanian language. It is designed for those who have never studied the language before, or those who want to build on existing skills. The course is based on the Council of Europe's Threshold guidelines on language learning, and its graded structure includes exercise material. A cassette, recorded by native speakers to accompany this book, is available separately, or both items are available as a pack.
