

Restoration: Is it Acceptable? (Occasional Paper)

The nineteen papers in this collection come from a conference which explored current attitudes to restoration among a wide range of conservators (including paintings, frescoes, carpets and rugs, textiles, mosaics, vehicles, armour). Contributors were asked to address the various dilemmas facing conservators, curators and collectors in the display and interpretation of museum objects, and among the problems discussed are invisible restoration, the running of machinery and clocks, and the introduction of replica components.
