

# Right Brain: A New Understanding of Our Unconscious Mind and Its Creative Power

Copyright 1980, 1st edition, ex-library, hardcover with dustjacket, 275 pages includes index. SUBJECT: Experiments have shown that each half of the brain is separately capable of thinking and learning, yet only the left brain can express its thoughts in words. Yet it is the right brain that is capable of creative solutions, sports, and sex and has a mind of its own which has been uneducated by our schools. CONDITION: Library cardholder/checkout sheet and stamps/notations inside. Dustjacket is enclosed in mylar overlay taped to cover. Binding is secure.
