

Doug Aitken

The spectacular film and sound pieces of Doug Aitken (born 1968) take visitors on a synaesthetic journey around the world and into themselves, in a maelstrom of expressive images and rhythmic landscapes. Published to accompany an exhibition at the Schirn, this book includes over 250 images--of sculptures, site-specific sound installation and more--offering an overview of the artists heterogeneous oeuvre. Aitkens kaleidoscopic universe revolves around lifes existential questions, without supplying simple answers. Instead, the artist lends expression to an almost naive fascination with being human and peoples sense of collectivity and cooperation. Consequently, the recent projects by the Los Angeles-based artist have redefined the exhibition format. With essays by leading curators and art writers, this accessible hardcover documents the interactive and varied work of this contemporary giant.
