

A Reality Revolution

A lucid awakening through honest rhyme
Within the pages of this book awaits for
you an adventure. For through the practice
of ideas set forth one can find a greater
awareness. I believe awareness to be a road
traveled into the distance which only
honesty can send us. Into these open spaces
a way forward comes into view past this
world built upon a complexity of lies. And
I, as most of you, have become tired of
treading the seemingly endless quarrel of
bad ideas toward decline. While desiring to
open a dialog into the place in which true
change can flourish. If you feel at all
similar then these lyrical poems will
challenge you in the ways of
self-improvement, as we begin a quest to
deflect the falsity of our troubled time. So
as a guide I wait for you naked within a
broadened spectrum of emotion. With
simplistic words of communication that
open the minds eye into the place which
only the genuine know.
