

French Paintings from the Musee Fabre, Montpellier

This volume featuring the collection of the Musée Fabre spans three centuries and includes works by 55 of the greatest French painters including Nicolas Poussin, Jacques-Louis David, Eugène Delacroix, Edgar Degas, Alfred Sisley, Frédéric Bazille, and Gustave Courbet. An exceptional array of iconic paintings covers all artistic movements from 1600 to 1900, including Baroque, Rococo, Neoclassicism, Romanticism, Realism, and Impressionism. The painters represented worked in every genre, from portraiture, religious and mythological subjects, and landscapes to still lifes. The volume provides a comprehensive overview of French art, following its evolution from the highly sophisticated and classical art of Poussin in the early 17th century to the complete rethinking of painting by Courbet at the threshold of Impressionism in the second half of the 19th century.
