

How to create the fashion designs of your dreams: No technical background or experience required for this DIY guide

For the fashionista in you who always wanted to create a fashion line but you felt you had no resources to do so. This book will show you that creating a fashion line is much easier than you actually think. Every time you turn on the television you see certain shows on television, in which these reality stars creating/promoting their own fashion line. You also wondering how this is possible when they did not go to a fashion school. They (most of them) have no technical or design experience, so how the heck can they do it? Actually you are right to think that, but you are also wrong. In the respect that you really can create a fashion line with no technical or educational background. This book is going to show you how you don't need to have technical experience, and you don't need to know how to be able to sketch, per se. This book breaks out the process in easy actionable steps that you can do for each and every collection/design that you make. It takes the stress out of designing and makes it easy. Creating fashions is a lot easier than you think, again you just need to know how to go about getting the proper information/resources. So it's all about just knowing where to go in order to get what you need done and this book is basically going to help you facilitate and point you in the right direction. This is the definitive guide to creating the fashion line/designs of your dreams. We take you from your initial concept thru the design process. Guiding you thru design concepts/samples/production/fabric & trims sourcing and more. Everything you need to get your collection started the right way.
