

Angel Guidance For Inner Healing: Heal your Heart, Soul, and Mind with the Angels

If you find yourself constantly plagued with fear, pain, worry, and inner doubts, reach out and connect with the angels to help clear away those problems. In Angel Guidance for Inner Healing, the angels give you their input on how to walk free of emotional pain and bring healing in your life. Uncover the secrets of heaven and listen to your angels. Excerpt: Angel Chamuel It starts with a choice. It sounds simple and uncomplicated, but that is the first step in order to receive inner healing. If you are resisting change, then there isn't much we can do to bring restoration in your heart, soul, and mind. So first of all, make a conscious choice to heal. Listen to the wisdom we wish to give you. If you close up your ears to us, it will be very difficult for you to walk out the full healing process, we want to take you on. Healing is a journey; it is not an instant onetime thing. Just as a wound slowly layers, when it's healing, so your heart, soul, and mind heal by layers. Each wound, from the past, leaves a mark on you, and we need to address each mark, so that you can recover from the trauma of the past. Make sense? We need to deal with some of the top layers, so that we can get to the reason you keep attracting those painful experiences into your life. Many therapists will go to the root immediately. They will talk about your parents, your childhood, bullies etc. And while this is helpful and needed, sometimes the first layers get ignored, and they are the ones that are most on your mind. Your childhood is buried deep inside, and that inner child needs healing every day, but first deal with the current you right now. That is the one that is crying, begging, hurting, and needing to be healed. The you today has been built over time, and it takes time to build a new you. Don't grow discouraged though at this process we long to take you on. For in the end, isn't it worth it to feel relief? Happiness? Love? I know some of you

say you cant afford therapy, or youd have been taking it for years and years. We want to be your therapy. Father and us. We want to help you uncover the roots inside of you, so that you can properly heal on the inside. But, first, we need to deal with the layers on top. Okay? Dont dive right into your childhood trauma. Dealing with that can feel overly painful and overpowering for you, at the moment. Dealing with the first layer today can take away the top layer of pain.
