Mindfulness Meditation: Breathing Toward Enlightenment delivers the power of breathing and mindfulness directly into your hands, mind, and heart. The direct style will have you on your way toward a more joyful, empowered, peaceful YOU. And do it by bedtime tonight! * Energize your mind. * Get fit. * Improve your mental alertness. * Sharpen your perception. * Banish anxiety and stress. * Reconnect with that deeper, calmer you already there but hidden inside. * Develop Mindfulness. * Experience the joy of life (again)! Meditation manifests all of these improvements, and more, into your life. Even a small amount of time taken to do this simple meditation reduces stress and anxiety. In fact, the more responsibilities and obligations you have (and ironically the less time you think you have for meditation), the more meditation can improve your life. Meditation helps you to express yourself more accurately. It helps boost your immune system to create a healthy body. Clarify your life through meditation, and a confusion-free mind results. Meditation even helps you have a joyful soul. The meditation technique in this book is very simple, yet very powerful.

The results you get are a more energetic, healthier, and more aware YOU!
