

Masters of English Music (Classic Reprint)

Excerpt from Masters of English Music
The aim of this series is to place on record the chief facts and incidents in the careers of the greatest living composers, and to sketch the respective tendencies and the distinguishing features of their work. It is intended to devote a volume to the musicians of each country, and, so far as practicable, to obtain all biographical data from the composers themselves. In the present volume this plan has been followed exclusively. The author wishes to acknowledge the assistance afforded him by Messrs. Novello, Chappell, Boosey, and Cramer, in kindly providing him with the full scores, &c., of the various works for purposes of reference. About the Publisher
