

# The Skill of Living: The Buddhas Path for Developing Skillful Qualities

The Skill of Living explicates the Buddhas path for developing the skillful qualities of generosity, ethical conduct, renunciation, truthfulness, effort, determination, discernment, lovingkindness, patience, and equanimity. These qualities are considered skillful because, when cultivated, they lead us to greater happiness. We build these qualities, Peter Doobinin emphasizes, by practicing skills. The Buddha taught skills. He didnt say practice generosity and leave it at that. In The Skill of Living Peter shows us how to cultivate skills. Teaching the dharma, the Buddhas path, in New York City for many years, Peter has learned how to help people cultivate these skills while living as householders, with jobs, families, and myriad responsibilities, amidst the speed and complexity of the modern world. The Skill of Living exemplifies Peters clear, thorough, wholehearted, down-to-earth approach to dharma practice. The joy he finds in teaching the dharma shines through on every page. Whether youre a long-term student or somebody who simply wants to have a better life, The Skill of Living offers a way to develop profound, life-changing skills. It is an invitation to explore a precious teaching, to know a greater happiness in your life.
