

Practical Ideas for Kitchens and Bathrooms

Essentially a sourcebook packed with ideas for the fitting of bathrooms and kitchens, this copiously illustrated volume takes the reader gently and clearly through the process, examining the various benefits of different styles, materials, lighting schemes and accessories. The aim is to create a practical, yet stylish, look for two of the most used rooms in the house, and this book will feed that dream for both the home decorator and professional designer. Combining hygiene, practicality and a contemporary touch, a simple approach is the touchstone for ushering baths and kitchens into the 21st century.
