

Revolutionary Experimental Space R.e.p. (English and Ukrainian Edition)

The R.E.P. group addresses a number of themes that are variously symptomatic of the current state of Ukrainian society in its relations with the rest of the world and its internal problematics, which are considered universally. These include labour migration and the state of post-Soviet cultural institutions; social stratification and shared mythical images of prosperity; Soviet heritage and the simulation of westernisation, as in Eurorenovation; popular demand for a certain type of art and the individual responsibility of the artist.
