

Audit of HIV/AIDS Policies: In Botswana, Lesotho, Mozambique, South Africa, Swaziland, and Zimbabwe (Research Monograph / Social Aspects of HIV/AIDS and Health R)

Based upon national reviews of current policies, strategic plans, and actual programs, as well as key informant interviews conducted with staff of governmental departments, this study is a detailed analysis of in-country drug policies in relation to the prevention and treatment of HIV/AIDS. One of the first scientific reviews of disease policy, legislation, and financing, this comprehensive research study not only reviews HIV/AIDS policy but also provides recommendations for strengthening programs that deal with this disease.
