

## Richard Rogers Complete Works - 3 Volume Set

RICHARD ROGERS COMPLETE WORKS includes three volumes detailing the work of Richard Rogers, the innovative British architect who won the Pritzker Prize in 2007. Phaidon previously published the three volumes in the set in 1999, 2001, and 2006. The compendium features all of Rogers projects, both built and unfinished, from 1961 until the present day, including Centre Pompidou in Paris (1971-77); Lloyds of London (1978-86); the European Union Court of Human Rights in Strasbourg (1989-95); the Terminal Building at Barajas Airport in Madrid (1997-2005); and Terminal 5 at Heathrow Airport (1999-2008). The three volumes are widely illustrated with images and blueprints from Rogers practices archive, alongside authoritative text and essays setting the projects in context.
