

## Staying Connected

The idea of working with the dead maintaining, continuing, and enhancing ones relationships with those who have died was fundamental to Steiners work. This volume collects a rich harvest of his thoughts on the subject, gathered over many years. Steiner spoke directly from his own experience and formulated various meditation practices and verses that worked for him. We learn the usefulness of reading to the dead; the use of verbs (instead of nouns) when we speak with them; the importance of the sacred moments when falling asleep and awakening for asking questions and receiving answers; how our memories of the dead are like art to them; and of key moods we must cultivate community with the world, gratitude, confidence in the current of life. We learn, too, of the many ways discarnate souls can help us in our earthly work, and of the many ways we can help them. Also included are many of the mantras Steiner gave to his students for connecting with those who have died. This important volume will help those who want to deepen their relationships to the living, to those who have died, or to the spiritual world itself.
