

# English Teochew Dictionary

This is an English - Teochew dictionary. The Teochew is the Malaysian Colloquial variety spoken in informal, familiar settings. Teochew is a tonal Chinese language. However, due to technical limitations of Kindle and other reasons, the Teochew is presented in a phonetic romanized form. For those who are totally unfamiliar with Teochew phonology, [www.teochew.co](http://www.teochew.co) is on-line to provide guidance. A starting vocabulary of 1,000 entries is provided as this is the first time that a dictionary is published in the Malaysian Teochew. Almost all are single-word common entries, with some compound nouns and phrases. For the latter group, the meanings of the constituents are supplied to give an idea of how concepts and ideas are built up, ie how the language functions. The translator, Robert Goh, learned the language as his mother tongue while growing up in Malaya/Malaysia in the 1950s and 1960s.
