

The Astrology of Reincarnation volume I part II- of Introduction to The Aspects

Following Introduction to the Aspects this unique and long awaited book by Elizabeth Rose Howard constitutes an amazingly accurate, comprehensive and insightful breakthrough into the astrology of reincarnation; making any preciously channeled material on this subject look like a pamphlet by comparison. With hundreds of pages of practical channeled material this work is truly unique in the information that it contains, and it is probably the most enlightening book of its kind on the astrological aspects. Focused upon the oldest and most original form of astrology used by the Babylonians, Edgar Cayce, Djwhal Khul, Alice Bailey, Madam Blavatski and other renowned spiritual astrologers, the Ascended Masters bring Sidereal Astrology back into the public domain after over 1200 years in the wilderness, showing us that it truly is the astrology of the soul. This book is a must for anyone with even the most casual interest in astrology.
