

Parrish the Thought (Christine Sterling Mystery) (The Christine Sterling Mystery Trilogy)

WINTER Unlovable people plague Christine Sterling's world. Most difficult of all is Amanda Colter, a surly Goth teenager accused of murdering prominent Nevada City matron, Bessie Parrish. When Christine answers Amanda's call for help, she is thrust into a frightening and unfamiliar world populated by misfits and outcasts. In her zeal to help Amanda, she must face the ugliness of her own prejudiced heart. That means she must decide whether to run from those who live on the fringes or to give up her judgmental attitude and instead embrace God's command to love the unlovely.
