

Group Meditation

This book comes from joy. With these words, Michael Lipson begins his offering, the fruit of many years of study and practice. Group Meditation is both a practical introduction to the power of meditation in groups and a challenging review of the meaning of meditation itself.

Continuing themes he introduced in his earlier book, *Stairway of Surprise*, in *Group Meditation* Lipson shows how ordinary capacities such as thinking and feeling can be intensified without limit in a group setting, so that these capacities transmit the most intimate truths of nature and being. There are aspects of the world that are too vast to be borne by one person alone; to approach them, a group is needed. Theme-based meditation, as Lipson demonstrates, links those practitioners together in a special kind of community that can endure greater light. With repeated exercise, either in isolation or in community, attention oriented toward a high meaning grows more concentrated, more intense. It frees us to drop our self-concern and, instead, take in the full shock of our shared existence on Earth. It helps us, finally, to be, ourselves, the news from heaven.
