

The Mystic Artist

When Sandra began writing this book, the title was intended to be Truth in Art. She gathered ideas for many years, taking all her personal experiences as an artist and observer into account. A consummate diarist, she has kept amazing records of incredible happenings in her life as well as premonition dreams and visions, her songwriting, poetry and art. Through the years since Sandy began writing this book, it has evolved from a book about art into one about the artists capacity as a kind of channel for otherworldly entities, forces from other dimensions - a Higher Power, if you will. This book is a study of the life force that surges in the great mystics of all time - the Mystic Artists. From the elusive afterlife they communicate truth forces. From the Great Beyond they influence and direct. Written musically, lyrically, often whimsically, it is a conceptual, artistic study of each phase of the artists growth; and it is a spiritualistic survey of immense value - the definitive guided tour into artistic intuition via the imagination. Reaching for a deeper understanding with a faith that lives in the truth that forces in the Great Beyond link with the artists at work here on our level, Sandy stirs up a potpourri of past, present and future all culminating to teach us the deepest secrets of the mysteries of creation. She tells about the universal truths in art, spirit art, the inspiration and isolation of the inner wars of external/internal art. She inspires us with ideas about instinct and intuition, showing us how to recognize clues about our life purpose along the path; she gives us a way to release and tap into soul power to cleanse and heal through the act of creating. From automatic writing to spirit channeling, this book tells of the many ways mystics have tried to reach into the Great Beyond for answers to the question of their art. Sandy tells us many of the stories from the mystics and prophets of the Bible, the artistic prophets and guardian
