

Theories of modern art;: A source book by artists and critics (California studies in the history of art)

Herschel B. Chipp's *Theories of Modern Art: A Source Book by Artists and Critics* is a collection of texts from letters, manifestos, notes and interviews. Sources include, as the title says, artists and critics some expected, like van Gogh, Gauguin, Apollinaire, Mondrian, Greenberg, just to name a few and some less so: Trotsky and Hitler, in the section on Art and Politics. The book is a wonderful resource and insight into the way artists think and work.
