

Oceans Of Color

Dive deep into your imagination with these images from the sea. My hope is that you will have as much fun coloring these fun pics of food as I did creating them. The 40 pages of oceanic wildlife contains everything from nudibranchs to whales. The artwork is printed on one side only. The variety of art will set your coloring imagination free. So choose your colors and method and set your imagination free. My personal favorite is artist grade colored pencils. But you can use magic markers and crayons. Wet media, like watercolors, acrylic paints are not recommended.
